**REMARKS**

Claims 1-21 are pending in this application and are allowed. By this Amendment, the specification is amended to remove a chart on page 4, and the chart is added as new Fig. 26. The specification is further amended to add a brief description of Fig. 26 and to correspondingly amend paragraphs [0013], [0071] and [0072].

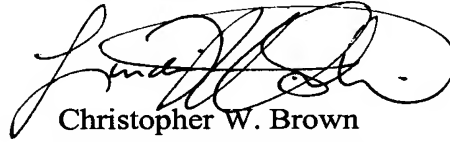

The courtesies extended to Applicant's representative by Examiner McCarry at the telephone interviews held April 9, 2007 and May 11, 2007, are appreciated. The reasons presented at the interview as warranting favorable action are incorporated into the remarks below and constitute Applicants' record of the interview.

In particular, during the telephone interviews, the Examiner indicated that the Letters Patent corresponding to the present application has not issued because a further amendment to the application was required. In particular, the Examiner indicated that the chart on page 4 of the application should be removed from the specification and added as a new figure. The Examiner further requested that a brief description of the new figure should be added to the specification.

The application is amended as requested by the Examiner. In view of the foregoing, it is respectfully submitted that this application is still in condition for allowance.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
